My Project Portfolio

Outline

1. Purpose
2. User Stories
3. Design Considerations
4. Demonstration
5. Favorite parts & lessons learned
6. Question time

My objectives

ENABLE — Visitors to easily locate my projects and related media

DEMONSTRATE — My web development abilities and growth trajectory

SHARE — Information about my personality and ambitions

COMMUNICATE — Previous experience and education

User Stories

I'm **Tom,**

I want to see Billy's passions, so that….

I can tell if he will give a crap about my pro-bono project.

I'm **Alex,**

I want to see what tools Billy is familiar with, so that….

I won't have to invest lots of time training him in html.

I'm **Rowina,**

I want to see Billy's projects, so that….

I can see if he has solved a similar problem I need assistance with.

I'm **Sally,**

I want a link to Billy's resume, so that….

I can send it straight to the CEO.

I'm **Jess,**

I want to see Billy's Twitter profile, so that….

I can tell if will be a good cultural fit for my organisation.

I'm **Charles,**

I want to see Billy's hobbies, so that….

I can tell if he will be someone I'd enjoy having a beer with after work.

Design Overview

MOOD BOARD

CONSIDERATIONS

> Reflect my love of nature and outdoors
  – Green, brown and white colors

> Emphasize and focus content by using whitespace

> Consistency of styling across the page
  – Use of cards
  – A single font

Lessons Learned

FUN BITS

> Learning Flex Box and understanding it's power!

> Researching award winning portfolios (and CSS potential)

> Learning a smidge of Javascript to implement click functionality on nav bar

LESSONS LEARNED

> Be careful setting fixed heights and widths for images

> Look out for blocks within in-line elements

> Wireframe multiple screen sizes
